#### nr. S. Weir. Mitchell, the Great Neurologist, Warns Americans Who Neglect Their Nerves.

"In busy centers the number of deaths due to nervous causes has increased twenty per cent in lorty years. Onefourth of the deaths in cities to-day are from nervous diseases."-Dr. S. Weir. Mitchell.

The clean, rich nerve-force that was behind the health and happiness of thousands upon thousands is literally burning itself up like the dry wick of an empty lamp. It is the "Strenuous Life," with a vengeance.

Can men who go to their work in the morning tired and with lax spirits give to their own affairs the electric touch of confidence and power

upon which success depends?

Can mothers worn out and nervous, plodding dully or ill-tempered through the routine of homekeeping, bring into the family life that precious spirit of hopefulness and happiness with-out which the word "home" seems a mockery?

When you feel exhausted-when you grow tired sooner than you should-when you lose patience with the irritating cares of daily life— when you feel discouraged—when you feel that your hopes and ambitions are not as high as they used to be-when you spend a sleepless nightwhen you get up almost as weary as when you

went to bed—when you are worried.

These are all signs that your nerve forces are burning low.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly, tired nerves cannot keep the organs of the body working in that harmony which is essential to

real health. This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It make new Nerve Force. It makes pure rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely

all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Cel-

ery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

Without Nerve Force there can be no health at

all—no success—no joy in living.

John S. Long's case is simply one of thousands upon thousands. An average case and an object lesson to the average person.

"For nervousness and stomach troubles Paine's Celery Compound is the medicine. I was almost a physical wreck when I commenced to use Paine's Celery Compound, and now I am as heaitly as any man in the world, and I owe it all to Paine's Celery Compound. The first bottle I took helped me wonderfully, and by the time the second was used I was a well man, and I can cheerfully recommend It to any one as being the best medicine I have ever used."

—John S. Long, Ballard, Wash.

Try Paine's Celery Compound to-day. It braces

you up at once.

Take two days' treatment. See how much better you teel. See how much more easily the trials roll away.

For over 18 years Paine's Celery Compound has been the most universally used nerve vitalizer and tonic in the world.

Remember this-Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University. All reputable druggists recommend and sell Paine's Celery Compound.
